

BODY HOOK

REACH POLE ATTACHMENT

Rescue body hook for retrieving conscious/unconscious casualties from the water. Ideal for use poolside or in rescue - recovery situations. The large rod means no involvement from casualty is necessary.

Strong and safe for retrieval of objects or casualties

Ideal for rescue scenarios

This attachment is lightweight but made from heavy duty aluminium

Specially designed to be used for body recovery

Can be used with our Inflatable Buoy and Extension Pole attachments

Fitting to the reach pole is simple and is done via the pole's quick release mechanism

HOW TO USE

Attach the Body hook attachment by sliding onto the pole. This will secure into place with the spring pin system. Extend the pole to desired length and hook the body hook around the casualty's waist and retrieve. Strength is sufficient to pull a victim through the water.

WARNING

NOT FOR VERTICAL LIFTING

Please note that our reach poles need to be purchased separately and are available in 4.5m, 6m, 9m or 15m lengths.

Weight

0.4kg (0.88lbs)

Length

48cm (18.9")
