

GRAPPLE HOOK

REACH POLE ATTACHMENT

This 316 stainless steel grapple hook accessory is suitable for retrieving irregularly shaped loads where more than one contact point is necessary.

Fitting to the reach pole is simple and is done via the pole's quick release mechanism, which keeps the grapple hook securely in place.

Removing is just as quick and simple for when a change of attachment is required.

Can be used with our Inflatable Buoy and Extension Pole attachments.

Please note that our reach poles need to be purchased separately and are available in 4.5m, 6m, 9m or 15m lengths.

Dimensions

38 x 25 x 25cm (14.2" x 9.8" x 9.8")
