

Standard Attack Hose

Double Jacket – TPU Lined

The Kochek Standard Attack Hose line is made of the best quality materials. All configurations are assembled to order in our Putnam, Connecticut, USA facility. Each hose features Kochek's resilient, long-lasting aluminum alloy bowl couplings, renowned for their performance and durability.

Main Features

- 100% all polyester double jacket with thermoplastic urethane (TPU) liner.
- TPU lining results in a lighter, tighter-packing hose with reduced friction loss.
- Polyurethane (PU) coating protects against abrasion and shields against heat and flame. Product has good bacteria, mildew, and petrochemical resistance.
- Meets and exceeds NFPA 1961 standards and UL-19 standards.
- Remains flexible at temperatures as low as -40F.
- Available in 1-3/4" and 3" diameters, and lengths up to 100'.

Connections

- Standard bowl couplings available with 1-1/2" or 2-1/2" NH and NPSH threads.
- Special threads available upon request.
- Other types of specialty couplings available upon request.

Colors & Finishes

- Hose is available in Red (1-3/4") and White (3").
- Both color options are PU coated for consistent performance.
- Standard couplings are hardcoat black or natural, depending on availability.
- This industry-standard coating offers superb corrosion and abrasion resistance.
- Powdercoated couplings for color-coding are available upon request.

Warranty

- 2 Year Manufacturers Warranty
