

Standard Attack Hose

Single Jacket Forestry – TPU Lined

The Kochek Standard Attack Hose line is made of the best quality materials. All configurations are assembled to order in our Putnam, Connecticut, USA facility. Each hose features Kochek's resilient, long-lasting aluminum alloy bowl couplings, renowned for their performance and durability.

Main Features

- 100% all polyester single jacket with thermoplastic urethane (TPU) liner.
- Easy-to-handle lightweight construction, ideal for rigorous forestry applications.
- Polyurethane (PU) coating provides abrasion protection and shields against heat and flame. Product has good bacteria, mildew, and petrochemical resistance.
- Urethane liner reduces friction loss ensuring maximum water flow.
- Meets and exceeds NFPA 1961 standards and USDA Forestry Spec 5100-187C Type II.
- Remains flexible at temperatures as low as -65F.
- Available in 1" and 1-1/2" diameters, and lengths up to 100'.

Connections

- Standard bowl couplings available with 1" and 1-1/2" NH and NPSH threads.
- Special threads available upon request.
- Other types of specialty couplings available upon request.

Colors & Finishes

- Hose is available in White.
- Standard couplings are hardcoat black or natural, depending on availability.
- This industry-standard coating offers superb corrosion and abrasion resistance.
- Powdercoated couplings for color-coding are available upon request.

Warranty

- 2 Year Manufacturers Warranty
